

REMARKS

Paragraphs 1 of the Office Action

The drawings are objected to under 37CFR 1.83(a). The drawings must show
5 every feature of the invention specified in the claims.

With respect to the first paragraph, the claims have been amended to remove the language and the specification amended to clarify the figures. In particular, the rotational axis of disc 32 is orientated perpendicular to the first 17 and second 18 end walls and therefore the end walls are actually orientated generally parallel to a longitudinal axis of
10 the spoke 7. As this is shown in the figures, no new matter has been added.

The applicant respectfully requests withdrawal of the objection.

Paragraphs 2 of the Office Action

The drawings are objected to under 37CFR 1.84(p)(4) because reference character
15 "32" has been used to designate both actuator and disc on page 6.

The specification has been amended to further clarify the components of the invention.

The applicant respectfully requests withdrawal of the objection.

Paragraphs 3 of the Office Action

The drawings are objected to under 37CFR 1.84(p)(4) because reference characters "40" and "50" have both been used to designate plate on page 7.

The specification has been amended as directed by the Examiner and it is believed that the informality has been overcome.

25 Withdrawal of the objection is respectfully requested by the applicant.

Paragraphs 4-6 of the Office Action

Claims 1-5 are rejected under 35 USC §112 second paragraph as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant
30 regards as the invention. Claims 1-5 would be allowable if rewritten or amended to

overcome the rejections under 35 USC §112 second paragraph, set forth in this office action.

Based on the above statements and the amendments made to the specification, it is believed that the claims are now in condition for allowance.

5 The applicant respectfully requests withdrawal of the rejection.

CONCLUSION

5

In light of the foregoing amendments and remarks, early consideration and allowance of this application are most courteously solicited.

Respectfully submitted,

10
